

**ARDEN UNIVERSITY QUALITY ASSURANCE DOCUMENT QA 45 – REPRESENTATIVE APPROVAL, MONITORING AND MANAGEMENT PROCEDURE (including PROGRESSION AGREEMENT)**

**Introduction**

The purpose of this document is to provide a set of procedures for the approval, monitoring and management of UK and international representatives (and progression agreements) at Arden University. These procedures are designed to ensure that responsibilities are clearly documented and that standards are maintained and enhanced in accordance with Arden University’s Regulatory Framework; UK Quality Code, Advice and Guidance: Admissions, Recruitment and Widening Access; and British Council - Good Practice Guide for Education Representatives; and UKVI.

**Definition**

Representative:

- An organisation who is contracted to recruit students on behalf of Arden University for their undergraduate and/or postgraduate distance learning (DL) and/or blended learning (BL) programmes or apprenticeship provision. A representative is not an academic partner.

Representative arrangements can be either:

- marketing - an organisation which delivers marketing communications and/or acts in an advisory capacity to support student recruitment and/or the progression of students to Arden University programmes.

and/or

- referral – an organisation which acts to refer applications or groups of applications to Arden University for admission to a programme of study. Referral representatives have no ongoing role in supporting progression and do not publish marketing materials relating to Arden University programmes, unless by prior agreement.

Sub-representative:

A third-party which is engaged by a representative to support recruitment (excluding Tier-4) or lead generation of students to/on Arden University programmes. A representative must provide details of all sub-representatives prior to any University recruitment (please see appendix 4). The representative will be directly responsible for the management and monitoring of all sub-representatives. The University will undertake periodic spot checks to ensure sub-representatives operate at same University standards that are set for representatives.

*Progression Agreement:*

An arrangement where an organisation refers students from a specific programme of study delivered by the organisation for admission to a programme of study at Arden University. Students from the organisation are not guaranteed entry onto an Arden University programme of study.

### **The Approval and Management Process**

There are nine key stages (appendix 1) involved in the approval and management process for representatives (and progression agreements), namely:

1. Director – Proposal and Initial Appraisal
2. Due Diligence
3. Review and approval by the Senior Quality Manager. If a cause for concern is identified, then the proposal would be forwarded to the Registrar or the Head of International Student Compliance for review and approval. The consideration and approval of progression agreements will be undertaken directly by Partnership Committee.
4. Report to Partnership Committee (acting on behalf of Academic Board)
5. Written Agreement
6. Update of the Representative Register (and Collaborative and Partnership Register for progression agreements)
7. Submit updated list of relevant international recruitment representatives to UKVI each quarter
8. Representative Training
9. Ongoing Monitoring and Review

These processes apply to all enquiries from prospective representatives irrespective of whether those enquiries are unsolicited or have been elicited either directly or via promotional/marketing activity.

#### **Stage 1. Director – Proposal and Initial Appraisal**

It is the responsibility of Arden University proposing Director to undertake an initial appraisal of the recruitment opportunity and to put forward a business case for the representative appointment (or progression agreement) using QA 45 Form 1 – Representative Proposal Overview Form (please see appendix 2).

The appraisal of representatives will include an assessment of:

- scale and nature of business expected to be undertaken; markets, programmes and profile of potential students

- current operations, including location of office(s), number of staff, marketing initiatives and the application advisory service and support
- track record and experience of working with UK HE institutions
- projected numbers

## **Stage 2. Due Diligence**

All representative arrangements (and progression agreements) are subject to a due diligence process, using QA 45 Form 2 – Representative Due Diligence Form (please see appendix 3) to ascertain legal and reputational risk. The due diligence of representatives will include a review of:

- organisation and professional profile
- legal standing
- understanding of student recruitment in the UK
- business references
- for UK representatives only, a basic evaluation of premises if potential students will be entering representative offices (with Arden University branding)

Any organisation entering into agreement with Arden University must be a legal entity operating in accordance with the legal obligations pertaining to the country in which they operate. In the case of an individual operating as a sole trader, that individual must satisfy the necessary laws for sole trader operation within the country in which their business operates. This means that the organisation or person should be registered with the appropriate authorities within their country and operating in accordance with the laws relating to a company or a sole trader.

The organisation must also have permission from the relevant authorities to deliver the services that it is contracted to undertake with Arden University. Appropriate documentation will be sought to evidence the legal standing and stability of the organisation as part of the due diligence. The representative must also declare any conflicts of interest in relation to other partners or individuals working with their organisation.

For UK representatives only, additional consideration will be carried out if representative premises are planned to receive potential students or other parties on Arden University's behalf (i.e. where there will be Arden branding on site). The Senior Quality Manager can decide to conduct a site visit of representative premises (prior to approval) by an appropriate member of staff from Arden University, or a third-party representative acting on behalf of Arden University. In the case of a third-party representative the Registrar will be consulted to assure that the individual undertaking a site visit, is appropriately qualified and experienced to make a judgment against what could be reasonable expected to maintain Arden University standards.

## **Stage 3. Review and Approval by the Senior Quality Manager**

The Senior Quality Manager will make an appraisal of the proposal and due diligence and decide whether to approve, using the Representative Approval Criteria Checklist (please see appendix 5). Approval will be granted where the Senior Quality Manager is assured a representative can deliver a recruitment service at a similar high standard to the University. In the event a cause for concern is identified then the proposal would be forwarded to the Registrar or Head of International Student Compliance for a decision.

Where a potential representative is deficient in a certain area of provision and it can be rectified, then advice and guidance will be given to address problem areas within a specified timescale.

The consideration and approval of progression agreements will be undertaken directly at Partnership Committee. A progression agreement will recognise the award a student receives at another organisation but will not guarantee a place onto an Arden University programme. The proposal for a progression agreement will need to outline the academic fit between the organisation and Arden University programmes.

#### **Stage 4. Report to Partnership Committee (acting on behalf of Academic Board)**

All representative approval decisions will be reported to Partnership Committee together with an overview of the proposal and rationale for decision.

#### **Stage 5. Written Agreement**

The Business Development Director will develop a written agreement (from a University template) with roles and responsibilities clearly set out and agreed before any representative (or progression agreement) arrangement commences. The agreement will be approved by the General Legal Counsel and signed by the Chief Finance Officer. The agreement will include:

- financial details
- minimum student numbers
- legal aspects
- duration period
- expectations and behaviour norms
- approval of marketing collateral

The duration of representative agreements will be for 12-months and then extended yearly (with terms and conditions remaining unchanged), following successful monitoring reviews and on-going due diligence.

In the event any party decides to end an agreement, then the termination can be carried out in line with the terms and conditions of the agreement.

#### **Stage 6. Update Representative Register (and Collaborative and Partnership Register for progression agreements)**

Once the signed agreement is forwarded by the Business Development Director and saved as a formal record by the Senior Quality Manager, the Representative Register will be updated. The register will detail the type of agreement, approval date, agreement duration, review date and completion of training. Similarly, the Collaborative and Partnership Register will be updated on approval of any progression agreement.

#### **Stage 7. Report to UKVI**

In accordance with para 7.2 Tier 4 Sponsor Guidance (Document 2), details of representatives assisting with the recruitment of international student will need to be provided to UKVI via [EducatorsHelpdesk@homeoffice.gsi.gov.uk](mailto:EducatorsHelpdesk@homeoffice.gsi.gov.uk). The updated list of relevant representatives will be submitted to the UKVI each quarter by the Senior Quality Manager (or nominee).

### **Stage 8. Representative Training**

Representatives (and progression agreement organisations) will be provided with initial training via a Skype or face-to-face session to ensure accurate and effective promotion of the University and agreed programmes. University representative training will include:

- an overview of the University
- agreed programme information
- entry requirements and documentation
- application submission process
- UK HE regulatory understanding and legal requirements
- where relevant Tier 4 student visa training
- University standards and quality expectations
- approval, review and monitoring processes
- marketing approval process

Representatives will also receive on-going training and support from the University via the Representative Guidelines and a dedicated University contact, to ensure the student experience at recruitment meets University standards.

### **Stage 9. Ongoing Monitoring and Review**

Representative agreements will be subject to an annual review of performance which will also inform extension and termination decisions by the Senior Quality Manager, using the Representative Contract Renewal Form (please see appendix 6). Regular monitoring of representative activity will be undertaken on the following aspects:

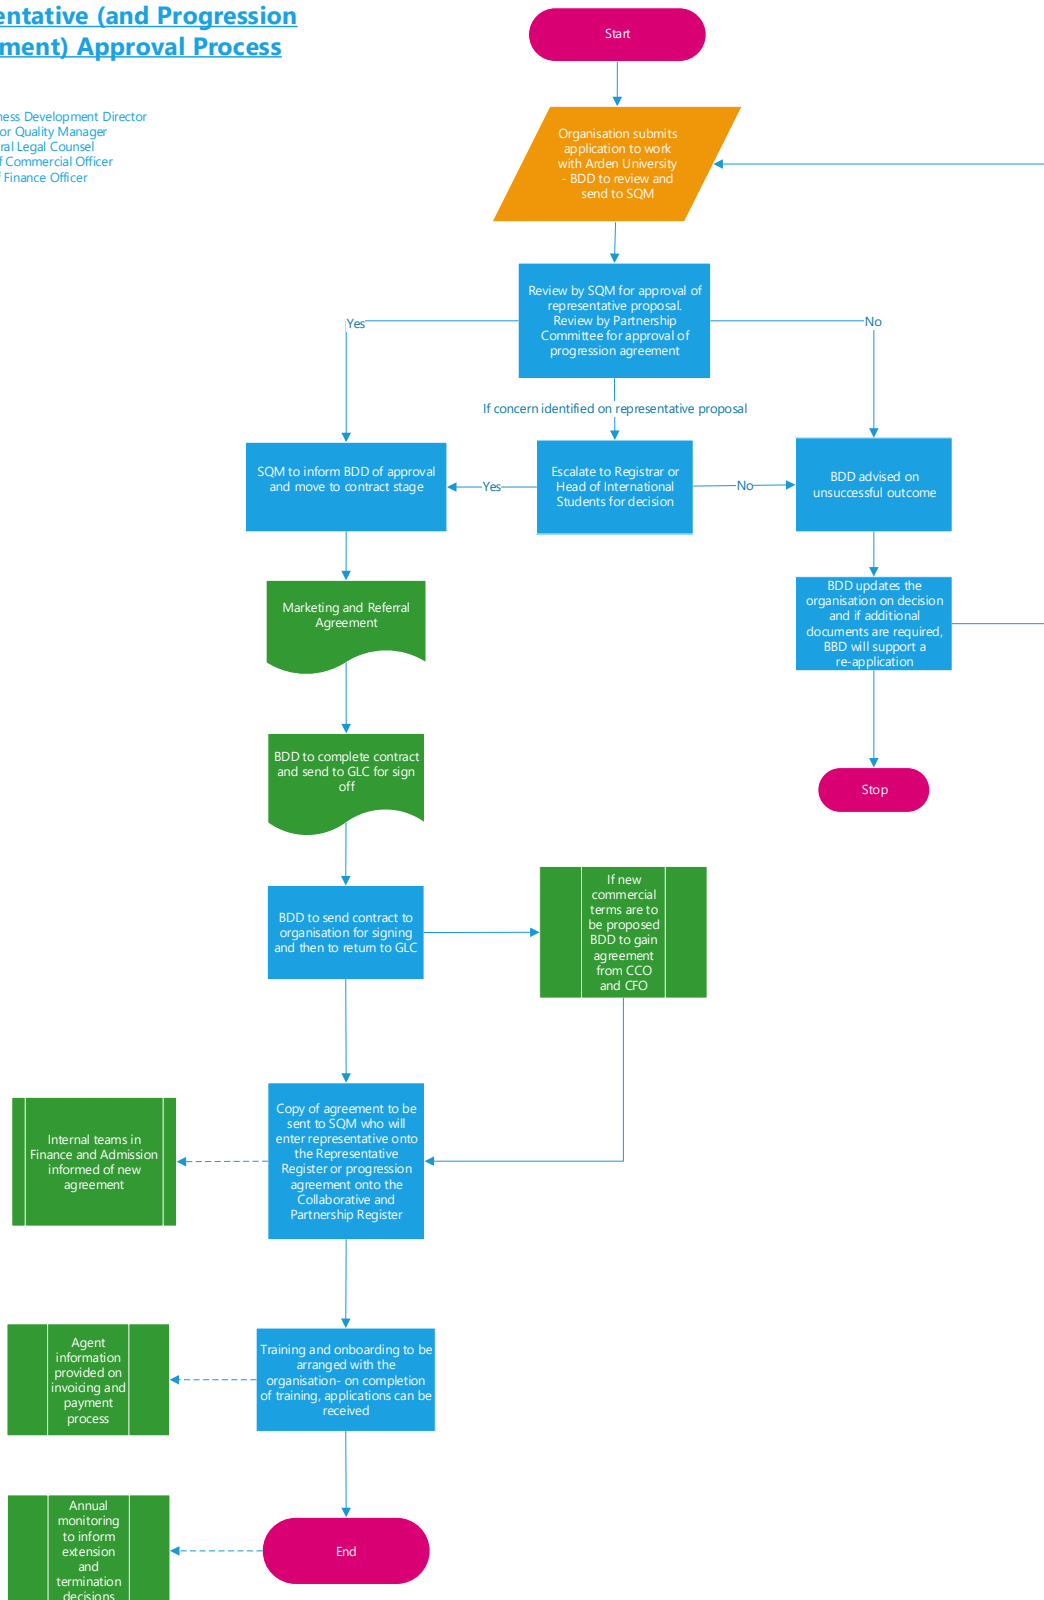

- number and quality of applications
- representative professionalism
- written information displayed by representatives inc. website and all marketing collateral
- verbal information given by representatives on admissions advice via call recording (where possible) or the Student – Representative Experience Survey
- student performance and progression

All monitoring for representatives and spot checks on sub-representatives will be managed by the Senior Quality Manager and reported at Partnership Committee. Similarly, an annual review of progression agreements will be undertaken by the Partnership Committee.

Appendix 1.

**UK and International Representative (and Progression Agreement) Approval Process**

BDD – Business Development Director  
 SQM – Senior Quality Manager  
 GLC – General Legal Counsel  
 CCO – Chief Commercial Officer  
 CFO – Chief Finance Officer
