10. Programme Aims

The overall aim of the Arden University BA (Hons) Business & Law programme is designed to enable students to acquire knowledge, understanding and a range of practical skills relating to the two inter-related disciplines which are applicable to commercial and non-commercial sectors, and in a variety of geographical and cultural settings. Simultaneously students will develop a range of transferrable skills that will aid them as they pursue business and legal careers or further relevant study. More specifically it will:

- allow students to develop managerial and professional level skills and understanding across the two related disciplines of Business and Law.
- promote understanding of the key aspects of current practice and ethics in the fields of Business and Law while acknowledging current and emerging developments in related disciplines.
- equip students with the essential skills and tools to work professionally in a range of commercial and non-commercial situations; and to be creative and professional practitioners, when working independently and when collaborating with others as part of multidisciplinary teams.
- present multiple perspectives on Business and Law in a way that fosters critical evaluation
- develop knowledge leading to an ability to appreciate and critically evaluate theory, research findings, and applications
- enable students to communicate effectively through a variety of media and presentational forms to specialist and non-specialist audiences.
- equip students to work within multicultural settings and to appreciate the complexities of such contexts
- provide a stimulating online academic environment in which students can develop confidence as practitioners, and as individuals who are part of a highly engaged community of learners and thereby to inspire students to become lifelong learners.

C8 Demonstrate a confident understanding of interdisciplinary themes and problem-solving skills.		
11d. Transferable skills	The means by which these outcomes are achieved and demonstrated	The means by which these outcomes are demonstrated
D1 Communicate succinctly in written and oral forms at a level suitable for an undergraduate student. D2 Reflect upon working effectively in collaboration with others and evaluate own strengths and weaknesses in engaging in critical reflection and acting on feedback. D3 Take responsibility for own learning, acting independently in planning and managing tasks with limited guidance.	Transferable skills are developed throughout the programme. The skills of communication, critical use and acknowledgement of source material especially the internet, and research informing practice are integral to coursework at all levels. All modules promote practical application and employability that a student may develop further in their dissertation topic at level 6 if they wish. As work becomes more progressively more complex at levels 5 and 6, students are required to draw upon their skill sets to manage increasingly large workloads. Students are required to complete a number of assignments and a dissertation in level 6 that demonstrate independence and originality, and critical enquiry, and which further enhance communication and self-reflective skills.	To embed transferable skills all assignments must meet time deadlines and word count guidelines as guided by our policies All assessed work must be submitted independently even where group activity has been an element of the process. Students must take responsibility for their own work. All assignments require students to engage in critical enquiry and self-reflection which is rewarded in marking guides. These guides, in line with good practice are available to students and are included with every assignment brief.

Business & Law Exit Awards: Programme Outcomes

As a joint honours award, students will be required to meet the credit thresholds set out in the AU Assessment Regulations. It is therefore not possible to map precisely which outcomes will be met for each exit award as this will depend across which modules the credits have been achieved. However, the table below provides an indication which Programme Outcomes will typically be achieved for each exit award.

Exit Award	Knowledge & Understanding	Intellectual Skills	Practical Skills	Transferrable Skills
------------	---------------------------	---------------------	------------------	----------------------

BA (Ordinary) (300 credits)	A1, A2, A3, A4, A5, A6, A7, A8, A9	B3, B4, B5, B6	C1, C2, C3, C4, C6	D1, D2, D3
Diploma of Higher Education (240 credits)	A1, A2, A3, A6, A7, A8	B4, B5, B6	C1, C2, C3, C5	D1, D3
Certificate of Higher Education (120 credits)	A1, A6, A7	B6	C1, C2, C3	D1, D3

12. Graduate Attributes and the means by which they are achieved and demonstrated

Graduate Attributes

The concept of the Arden Graduate, based upon the definition of 'graduate attribute' by Bowden et al (2000) has been developed around 6 attributes

E1 – Discipline Expertise

E2 – Effective Communication

E3 – Responsible Global Citizenship

E4 - Professional Skills

E5 - Reflective Practitioner

E6 - Lifelong Learning

The means by which these outcomes are achieved and demonstrated

All six attributes are relevant to this programme but will be developed through levels 4-6 of the undergraduate award where they are integrated into all programmes of study curriculum, unit study tasks (individual and group work) and through summative assessment tasks.

13. Learning and teaching methods and strategies

Learning and teaching methods and strategies are delivered through an integrated learning and teaching pedagogy that includes both asynchronous and synchronous activity. That is:

Asynchronous

- Independent and directed student study, supported throughout by comprehensive online multi-media teaching materials and resources accessed through our Virtual Learning Environment
- Guided group / project based work
- Research tasks
- Discussion forums where students discuss and critically engage with themes emerging from the online materials they engage with, following the posing of questions or propositions, case studies or similar by either tutor or students themselves
- Podcasts and narrated PowerPoints

Synchronous

- Face to face seminars for blended students where theory and practice are integrated.
- Independent and directed student study, supported throughout by comprehensive teaching materials and resources.
- Guided group / project based work.

Based upon our typical student profile, our strategy enables students to engage with a variety of learning tools that best meet their learning styles, overall objectives and personal circumstances.

Independent study is the cornerstone of the learner experience, supported by peer engagement and engagement with the tutor.

There is a requirement for written work at all levels including reports, essays, practical tasks, developed plans, timed examinations, portfolios of work etc., and our assessment policy informs how feedback is supplied by tutors at the formative and summative assessment stage.

14. Assessment methods and strategies

Our assessment strategy encourages a variety of assessment methods all explicitly aligned to learning outcomes that focus upon knowledge, understanding and skills. These are contextualised so that the assessment is directly relevant to each subject area and assessment methods include case study analysis, written essay, critical self-reflection, portfolios of evidence, sector report production, preparation of a targeted sector plan, time constrained tests, etc. All students will have the opportunity to engage in an activity and receive formative feedback from the tutor before the summative assessment.

15. Employability

Our approach pays due regard to the UKCES report 'The Employability Challenge' (2009a) definition of employability, 'the skills almost everyone needs to do almost any job. They are the skills that must be present to enable an individual to use the more specific knowledge and technical skills that their particular workplaces will require.'

The development of key skills for future employability is reflected and embedded through the AU values (Programme Outcomes C & D) and the AU Graduate Attributes (LO5 on the MDFs). This development is supported throughout the student journey with the suite of tools provided by the Ab Integro Careers Portal on the student home page.

16. Entry Requirements

Two Subjects at GCE A level or equivalent, plus passes at grade C or above in three subjects at GCSE level or equivalent; or

Completion of a recognised Access Programme or equivalent.

IELTS 6.0 (no less than 5.5 in any element) or equivalent for students whose medium of prior learning was not English.

Candidates who demonstrate an ability to study the programme as evidenced through previous a personal statement (of between 350-500 words) that addresses their motivation for undertaking the programme; including their references, relevant prior experience and qualifications.

Exemptions may be granted in respect of other qualifications subject to Arden University's APL regulations.
