

BA (Hons) Business & Law Programme Handbook

Published January 2020

Version 9

Introduction to the Programme

Welcome to the BA (Hons) Business & Law programme. This handbook provides you with information about the structure of your programme and a description of each of the modules that you will study.

The programme is made up of the core modules listed in the tables below.

Module Code	Module Title	Credits	Module Type (Core/Option)
SKI4002	Effective Interdisciplinary Study	20	С
BUS4001	Understanding the Business Environment	20	С
LLBQLD002 (DL) LAW4002 (BL)	English Legal System	20	С
LLBQLD004 (DL) LAW4005 (BL)	Law of Contract	20	С
MKT4001	Principles of Marketing	20	С
HRM4002	People in Organisations	20	С

Level 4

Level 5

Module Code	Module Title	Credits	Module Type (Core/Option)
RES5001	Research Ethics in Action	20	С
BUS5001	Managing Across Cultures	20	С
LLBQLD007 (DL) LAW5003 (BL)	Tort 1	20	С
LLBQLD008 (DL) LAW5004 (BL)	Tort 2	20	С
LLBQLD011 (DL) LAW5002 (BL)	EU Law	20	С
BUS5003	Enterprise & Entrepreneurship	20	C

Level 6

Module Code	Module Title	Credits	Module Type (Core/Option)
LLBQLD018 (DL)	Company Law	40	С
LAW6005 (BL)			
LLBQLD017 (DL)	Employment Law	20	С
LAW6006 (BL)			
BUS6001	Contemporary Management Issues	20	С
BUS6003	International Management	20	С
RES6004	Research Planning & Project	20	С

Please note that modules may not be delivered in this order; please refer to your course timetable.

Arden University Assessment Regulations

Students will be assessed in accordance with the standard Arden University assessment regulations which can be found on the Arden University website <u>http://arden.ac.uk/</u>

Programme Specification Form

Arden University QUALITY ASSURANCE DOCUMENT QA3 - PROGRAMME SPECIFICATION

1. Target Award	BA (Hons) Business & Law
2. Programme Title	BA (Hons) Business & Law
3. Exit Awards	Certificate of Higher Education in Business & Law (120 credits)
	Diploma of Higher Education in Business & Law (240 credits)
	BA Business & Law (300 credits).
4. Programme Leader(s)	Kimberley marsh
5. Delivery Model	Blended Learning
	Online Learning
6. Start date	January 2017
7. Programme Accredited by	N/A
(PSRB or other, if applicable)	
8. UCAS Code (If applicable)	
9. Relevant QAA subject	Business & Management (2015)
benchmark statement	Law (2015)

10. Programme Aims

The overall aim of the Arden University BA (Hons) Business & Law programme is designed to enable students to acquire knowledge, understanding and a range of practical skills relating to the two inter-related disciplines which are applicable to commercial and non-commercial sectors, and in a variety of geographical and cultural settings. Simultaneously students will develop a range of transferrable skills that will aid them as they pursue business and legal careers or further relevant study. More specifically it will:

- allow students to develop managerial and professional level skills and understanding across the two related disciplines of Business and Law.
- promote understanding of the key aspects of current practice and ethics in the fields of Business and Law while acknowledging current and emerging developments in related disciplines.
- equip students with the essential skills and tools to work professionally in a range of commercial and non-commercial situations; and to be creative and professional practitioners, when working independently and when collaborating with others as part of multidisciplinary teams.
- present multiple perspectives on Business and Law in a way that fosters critical evaluation
- develop knowledge leading to an ability to appreciate and critically evaluate theory, research findings, and applications
- enable students to communicate effectively through a variety of media and presentational forms to specialist and non-specialist audiences.
- equip students to work within multicultural settings and to appreciate the complexities of such contexts
- provide a stimulating online academic environment in which students can develop confidence as practitioners, and as individuals who are part of a highly engaged community of learners and thereby to inspire students to become lifelong learners.

11a. Knowledge and understanding		The means by which these outcomes are achieved	The means by which these outcomes are demonstrated	
A1	Evaluate the appropriateness of the structure, functions, processes and management priorities of a business organisation to achieve its strategic objectives.	Acquisition of knowledge and understanding is facilitated through a combination of seminars, tutorials, group discussions and independent and directed study, supported throughout by comprehensive online teaching materials and broader resources. We achieve this through a pedagogy that includes project work, group forums and project-based activities.	Assessment methods and strategies: Our assessment strategy encourages a variety of assessment methods all explicitly aligned to learning outcomes that focus upon knowledge, understanding and skills. These are	
A2	Utilise business research to improve business performance and analyse and interpret written, visual and graphical data.	That is: Asynchronous Independent and directed student study, supported throughout by comprehensive online multi-media teaching	contextualised so that the assessment is directly relevant to each subject area and assessment methods include case study analysis, written essay, self-reflection, portfolios of evidence, sector report	
A3	Recognise the importance of collecting relevant data, and the variety or information sources, both primary and secondary.	 materials and resources accessed through our VLE Guided group / project based work Discussion forums where students discuss and critically engage with themes emerging from the materials they engage with, 	production, preparation of a subject- specific plan, etc.	
A4	Analyse leading issues in business and have a clear view of the contemporary and cross-cultural issues facing modern managers.	 following the posing of questions or propositions, case studies or similar by either tutor or students themselves Podcasts and narrated PowerPoints Synchronous 		
Α5	Apply a range of theoretical concepts to practical organisational or industry sector issues or problems, displaying sensitivity to differing cultural and ethical contexts in decision making.	 Seminars (either face to face or using Adobe Connect) where theory and practice are integrated. Independent and directed student study, supported throughout by comprehensive teaching materials and resources. Guided group / project based work. 		
A6	Demonstrate factual and conceptual knowledge of the principle features of the English Legal System and European	Throughout, the learner is encouraged to undertake independent study to both supplement and consolidate what is being learnt and to broaden their individual knowledge and understanding of the subject. Learning is

Business & Law Exit Awards: Programme Outcomes

As a joint honours award, students will be required to meet the credit thresholds set out in the AU Assessment Regulations. It is therefore not possible to map precisely which outcomes will be met for each exit award as this will depend across which modules the credits have been achieved. However, the table below provides an indication which Programme Outcomes will typically be achieved for each exit award.

Exit Award	Knowledge &	Intellectual Skills	Practical Skills	Transferrable
	Understanding			Skills

BA (Ordinary)	A1, A2, A3, A4, A5,	B3, B4, B5, B6	C1, C2, C3, C4, C6	D1, D2, D3
(300 credits)	A6, A7, A8, A9			
Diploma of	A1, A2, A3, A6, A7,	B4, B5, B6	C1, C2, C3, C5	D1,D3
Higher Education	A8			
(240 credits)				
Certificate of	A1, A6, A7	B6	C1, C2, C3	D1, D3
Higher Education				
(120 credits)				

12. Graduate Attributes and the means by which they are achieved and demonstrated

Graduate Attributes

The concept of the Arden Graduate, based upon the definition of 'graduate attribute' by Bowden et al (2000) has been developed around 6 attributes

- E1 Discipline Expertise
- E2 Effective Communication
- E3 Responsible Global Citizenship
- E4 Professional Skills
- E5 Reflective Practitioner
- E6 Lifelong Learning

The means by which these outcomes are achieved and demonstrated

All six attributes are relevant to this programme but will be developed through levels 4-6 of the undergraduate award where they are integrated into all programmes of study curriculum, unit study tasks (individual and group work) and through summative assessment tasks.

13. Learning and teaching methods and strategies

Learning and teaching methods and strategies are delivered through an integrated learning and teaching pedagogy that includes both asynchronous and synchronous activity. That is:

Asynchronous

- Independent and directed student study, supported throughout by comprehensive online multi-media teaching materials and resources accessed through our Virtual Learning Environment
- Guided group / project based work
- Research tasks
- Discussion forums where students discuss and critically engage with themes emerging from the online materials they engage with, following the posing of questions or propositions, case studies or similar by either tutor or students themselves
- Podcasts and narrated PowerPoints

Synchronous

- Face to face seminars for blended students where theory and practice are integrated.
- Independent and directed student study, supported throughout by comprehensive teaching materials and resources.
- Guided group / project based work.

Based upon our typical student profile, our strategy enables students to engage with a variety of learning tools that best meet their learning styles, overall objectives and personal circumstances.

Independent study is the cornerstone of the learner experience, supported by peer engagement and engagement with the tutor.

There is a requirement for written work at all levels including reports, essays, practical tasks, developed plans, timed examinations, portfolios of work etc., and our assessment policy informs how feedback is supplied by tutors at the formative and summative assessment stage.

14. Assessment methods and strategies

Our assessment strategy encourages a variety of assessment methods all explicitly aligned to learning outcomes that focus upon knowledge, understanding and skills. These are contextualised so that the assessment is directly relevant to each subject area and assessment methods include case study analysis, written essay, critical self-reflection, portfolios of evidence, sector report production, preparation of a targeted sector plan, time constrained tests, etc. All students will have the opportunity to engage in an activity and receive formative feedback from the tutor before the summative assessment.

15. Employability

Our approach pays due regard to the UKCES report 'The Employability Challenge' (2009a) definition of employability, 'the skills almost everyone needs to do almost any job. They are the skills that must be present to enable an individual to use the more specific knowledge and technical skills that their particular workplaces will require.'

The development of key skills for future employability is reflected and embedded through the AU values (Programme Outcomes C & D) and the AU Graduate Attributes (LO5 on the MDFs). This development is supported throughout the student journey with the suite of tools provided by the Ab Integro Careers Portal on the student home page.

16. Entry Requirements

Two Subjects at GCE A level or equivalent, plus passes at grade C or above in three subjects at GCSE level or equivalent; or

Completion of a recognised Access Programme or equivalent.

IELTS 6.0 (no less than 5.5 in any element) or equivalent for students whose medium of prior learning was not English.

Candidates who demonstrate an ability to study the programme as evidenced through previous a personal statement (of between 350-500 words) that addresses their motivation for undertaking the programme; including their references, relevant prior experience and qualifications.

Exemptions may be granted in respect of other qualifications subject to Arden University's APL regulations.
